

October issue of Radniční noviny

08.10.2026

The hot and dry summer put the care of Prague 3's greenery to the test. How does the district look after its parks and lawns? The latest issue of *Radniční noviny* also reports on completed projects in and around local schools.

The October issue features an interview with Polish artist NeSpoon, who created the mural in Kostnické Square. She explains where she found the inspiration and why she chose a pink background. The Focus section looks at how Prague 3 cares for its greenery. It is not just about watering.

Elsewhere, *Radniční noviny* takes a look at the new clubhouse on Vítkov and the return of pumps—one of the symbols of our neighbourhood—to the area below the Žižkov Steps.
